

In-Ceiling Speaker

The architectural speakers by Sonance for ambient listening.

SONOS

Enjoy crystal clear sound and comfortable listening from anywhere in the room with Sonos In-Ceiling by Sonance. Power these wired speakers with Amp for the full Sonos experience, including custom Trueplay™ tuning.

The Exceptional Sonos Experience

When paired with Amp, these speakers unlock all the benefits of the Sonos system, including an easy-to-use app that works with all your favorite streaming services, Apple AirPlay 2, regular software updates that improve your listening, and the ability to add Sonos speakers and components to your setup at any time.

Customized Sound

Specially designed acoustic components enhance fidelity and equalize tonality across the collection. Sonos Amp unlocks Trueplay™, which tunes specifically for the size, construction, and furnishings of the room where the speakers are installed.

Power More with Amp

Power up to three pairs of Sonos by Sonance Architectural In-Ceiling speakers with a single Sonos Amp for even greater sound coverage.

Designed to Disappear

The specially designed round, or optional square, grilles can be painted to match your ceiling.
